

Live life at ease with Health Enrichment Centre (HEC). We value your health most.

Three-High: High Blood Pressure, Diabetes, High Cholesterol \$530

Singapore has a high diabetes rate. Associated conditions are hypertension and high cholesterol. Unfortunately many people either remain unaware of their conditions or these conditions may not be well controlled. The most common complications of diabetes are kidney failure, blindness, limb amputations, heart attacks and strokes. This package screens for these common complications including a retinal eye photograph.

High Blood Pressure, Diabetes, High Cholesterol includes:

Body Impedance Analysis
