

If you develop rashes, facial swelling or shortness of breath after taking the medication, you could be allergic to the medication. Please seek medical attention immediately.

How do I Store Morphine Syrup?

- Store your medication in a cool, dry place away from heat, moisture and direct sunlight.

If you have any problem with your treatment, please contact your doctor, pharmacist or nurse clinician.

Please keep all medications out of reach of children.

## PHARMACY

Drug Information

### Morphine Syrup

## How is Morphine Syrup Administered / Taken?

### Opening the Bottle

1. Press the bottle cap downwards and
2. Turn the bottle cap anti-clockwise to remove the cap.
3. Attach the oral syringe firmly to the rubber bung.

### Measuring the Volume

4. Tilt the bottle with syringe upside down. Do not block the markings on the syringe.
5. Gently pull the plunger of the syringe downwards to obtain the volume required, as stated on the medication label.
6. Remove the syringe from the bottle and take the medication directly from the syringe.

### Washing the Syringe

7. Wash the syringe straight away after use. Pull out plunger and rinse under running water.

### Keeping the Medication

8. Insert plunger back into the barrel.
9. Keep oral syringe with bottle back into the box.

### Where Can I View the Administration Technique Video?

- You may scan the QR code for video demonstration on how to use the oral syringe to measure out the correct amount of morphine.
